

PERSONNEL MANAGER

OUR ROLE

All day every day we are part of a multi-cultural team committed to advancing God's Kingdom. We work closely with ministry leaders and members to ensure that personnel matters are completed in a timely manner and personnel information is kept up-to-date. Although often working remotely this is a pastoral role, both supporting our members in their current situations and contexts as well as helping them as they consider and plan for their next steps in life and ministry.

OUR PASSION

We want to facilitate our members to flourish in their own walks with God and to be true salt and light in the contexts that they are in. We, with them, long to see God's kingdom advancing in depth and breadth throughout this region.

MEKONG MINORITIES

http://omf.org/mekong

The Personnel Manager supports members spread out across the region that we work in networking with others in support roles such as the finance manager, medical advisors, TCK advisors, candidate coordinators etc.

Caring for our members is a high value for us. We want to support and care for our members in ways that are relevant to them and their contexts.

It is a privilege to partner with our members and to hear of the many ways that they are being used for the furtherance of God's kingdom.
