TCK EDUCATION

OUR ROLE

We come alongside families who are working cross-culturally by delivering education for elementary, middle and high school aged children in both traditional and non-traditional settings, and provide support and advice for parents who are homeschooling in diverse settings.

OUR PASSION

We want to see kids who thrive in their education, who love learning, who are growing in their knowledge of the world, and who are developing their skills and talents to the full so they are well-prepared for all that God has planned for them. We want to see parents well-supported as they make choices for each child's education, so they too can thrive both in the family setting and their ministry context.

MEKONG MINORITIES

http://omf.org/asia/mekong-minorities

We place teachers in established international schools in Chiang Mai and Chiang Rai, Northern Thailand.

We create opportunities for homeschooled children to come together to enjoy co-operative and creative learning in special weeks in a central location.

We serve families who have middle and high school kids through a model that blends times of classroom instruction in a central location with times of independent learning at home.

Experienced TCK educators and advisors are available to support parents as they work out the best fit for each child's education.
